Product	Product Description	Licensing
<b>VDI View *</b> (known as VDI View 3.0)	<b>Part # VDI-W-STR-C</b> VDI and ESXi	Purchase in increments of 10
<b>VDI Premier *</b> (known as VDI View Premier Add-On)	<b>Part # VDI-PRE-UG-10-C</b> VDI, ThinApp, and View Composer	Purchase in increments of 10 and includes a ThinApp and View Composer
<b>Vmware ESX Enterprise</b> (known as Vmware Infrastructure)	<b>Part # VI-ENT-C</b> Create the foundation for the dynamic and automated data center with VMware ESX - the market leading hypervisor, production-proven at thousands of customers of all sizes. VMware ESX abstracts server processor, memory, storage and networking resources into multiple virtual machines, forming the robust foundation of the VMware Infrastructure 3 suite.	1 License per 2 Processors or 1 License per socket
<b>Lifecycle Manager</b>	<b>Part # VLCM-STD-C</b> Allow the management of virtual servers for the entire lifecycle of the virtual environment deployment	Per Processor (not per socket)
<b>Site Recovery Manager</b>	<b>Part # VI-SRM-C</b> Accelerate recovery and ensure successful recovery by automating the recovery process and eliminating the complexity of managing and testing recovery plans. VMware vCenter Site Recovery Manager eliminates complex manual recovery steps and removes the risk and worry from disaster recovery.	Per Processor (not per socket)
<b>Mgmt. &amp; Auto. Bundle</b>	<b>Part # VMAB-C</b> This is a bundle which includes Site Recovery Manager, Lifecycle Manager, AND a third product which includes the choice of Lab Manager or Stage Manager	License per 2 Processors (Only we can sell this product)
<b>Lab Manager</b>	<b>Part # VLM3-C</b> Create and manage a library of commonly used configurations and dynamically provision them in seconds with a simple mouse click. VMware vCenter Lab Manager gives users on-demand access to system configurations they need while achieving significant savings through reduced server, storage, and provisioning costs.	Per Processor (not per socket)
<b>Stage Manager</b>	<b>Part # VSM-C</b> Stage Manager organizes systems in the enterprise software lifecycle into services. These services represent the deliverables of IT separated into stages that span development and testing through production. Stage Manager increases IT service availability, accelerates response to configuration changes, promotes compliance with regulatory or workflow processes, and promotes efficient use of storage.	Per Processor (not per socket)
<b>VirtualCenter</b> (known as vCenter)	<b>Part # VI-VCMS-C</b> Rapidly provision virtual machines and monitor performance of physical server and virtual machines. VMware vCenter Server, formerly VMware VirtualCenter, centrally manages VMware Infrastructure environment simplifying day to day IT operations management and making your virtual environment easy to control and administer	1 license per site or purchase 1 per Production site and 1 per Disaster Recovery Site
<b>ThinApp Suite</b>	<b>Part # THIN4-STE-C</b> Run any version of virtually any application on a single operating system without conflicts. You can even run multiple versions of the same application. Plug VMware ThinApp, formerly known as Thinstall, into your existing management infrastructure and accelerate your software development and desktop deployment. Deliver and deploy applications more efficiently, more securely, and more cost-effectively with agentless application virtualization.	1 Packager/Installer and 50 clients
<b>ThinApp Client</b>	<b>Part # THIN4-CL-C</b>	Per device
