

ESRI Business Analyst License Agreement

Agreement for use of ESRI Business Analyst

OhioLINK through The Ohio State University currently holds the statewide license for ESRI products. The management of the licenses is handled by the Ohio Academic Resources Network (OARnet) under an agreement between OhioLINK and OARnet. The agreement with Environmental Systems Research Institute, Inc. (ESRI) allows the use of the Business Analyst upon request for educational purposes only. The agreement reads:

Licensee may copy and deploy the programs listed in Table A-3 up to the total quantity of licenses indicated below for teaching and student learning purposes only. No research or administrative uses are permitted. Programs in Table A-3 are by request only.

Programs	Total Quantity/Seats
Esri Business Analyst (Desktop Premium, Server & Online Premium)*	Unlimited
Community Analyst	Unlimited

**Data licensed with Esri Business Analyst Premium and Esri Business Analyst Server is restricted for use only in conjunction with respective Business Analyst extension.*

Table A-3. Total Quantity of Licenses

ESRI has also indicated Business Analyst and Community Analyst may be used:

- by students for coursework and other learning activities that provide academic credit toward a degree or certificate, including research papers that provide credit towards the degree (e.g., a 'capstone' project or master's thesis)
- by instructors/faculty for developing and teaching courses"

This form is the means by which we fulfill requests for this software for the universities participating in the Ohio ESRI consortium. By filling out and returning this form, you are agreeing to abide by the terms of the licenses and will use them for education purposes only. Other uses of the software require the purchase of a separate license from ESRI.
