# H.323 Beacon: Troubleshoot Before, During, and After Videoconferences

Sydney used H.323 Beacon to troubleshoot her connectivity problems so she is **all** here today...

Patrick is not able to connect. He's missing the conference...

Jack isn't projecting the image he would like...

Kristine's sound card is malfunctioning...

PROBLEMS:

- Firewall
- Traffic Congestion
- Internet Connectivity
- Sound/Video Card Malfunction
- Insufficient Bandwidth
- Poor Quality Audio/Video

BEACON FEATURES:

- Real-time Monitoring
- Troubleshooting Tools
- Preview Audio and Video
- Capture Entire Traffic Trace
- Self-Administered Tests
- No Pre-qualifications Required
